**QUAID E AZAM
MUHAMMAD ALI JINNAH (RA)**
"With faith, discipline and selfless devotion to duty,
there is nothing worthwhile that you cannot achieve."

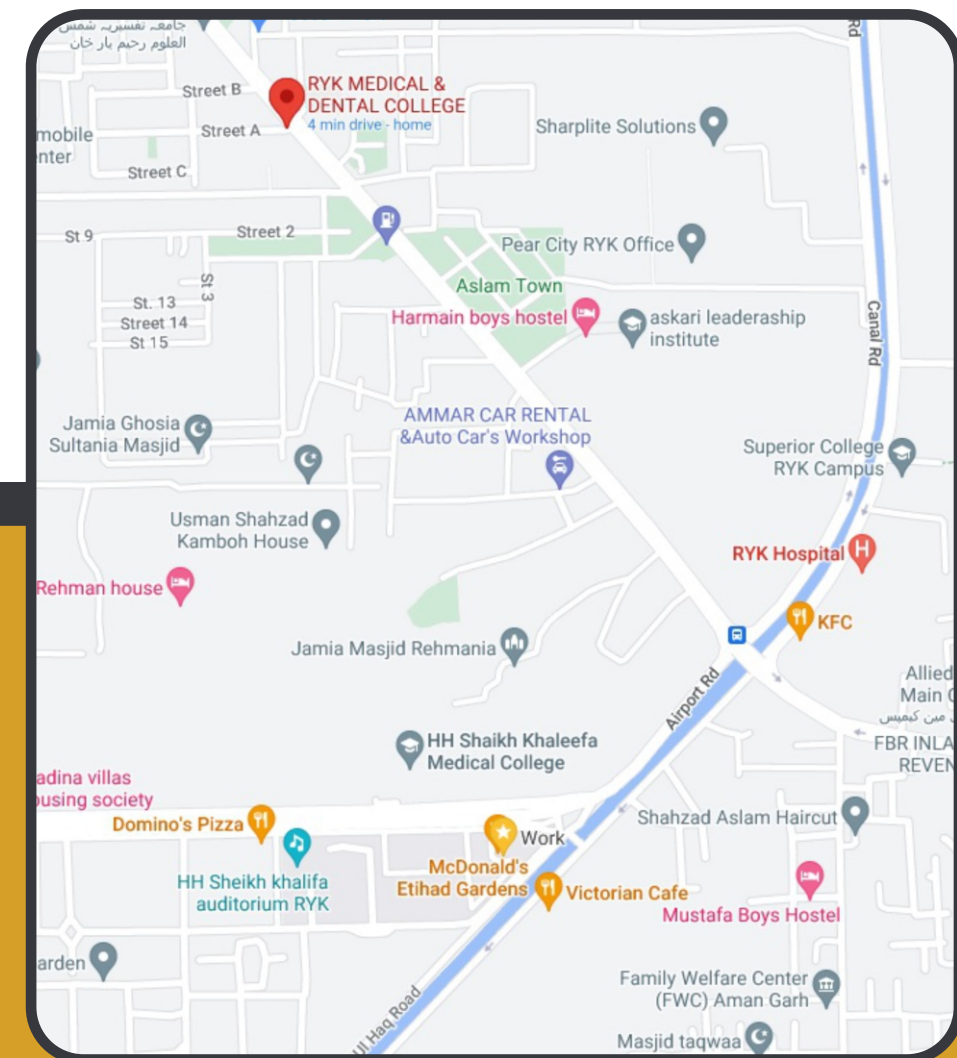

ALLAMA MUHAMMAD IQBAL (RA)
"The pursuit of knowledge in whatever colour is
done is a form of worship"

Our Location

Acres purpose built campus lies in the suburbs of Rahim Yar Khan, near to the city, away from the pollution and rush hour traffic of the main city. It is set amongst lush green fields but within an easy drive of 10 minutes to Itehad Garden and city areas. The green architecture is aesthetically pleasing and immensely eye catching in its simplicity.

Various facilities within the campus aim to cater to academic as well as personal and social needs of the students. Campus life is busy and fun. Student transport services to various points in R. Y. Khan strives to make community easy and hassle free for day scholars.

How to **Apply for Admission**

RYK Medical College will receive online applications and only those applications will be entertained that will fall under the admission criteria of PMC 2022/23.

In addition to this, manual application will be received as well. To ensure admission at RYKMC students have to chose RYKMC as 1st priority.

Pre Registration desk at campus & RYK Hospital will be operating as admission opens.

Admission **Policy**

The admission policy of Pakistan Medical Commission & University of Health Sciences for private medical colleges in Punjab for 2022/23 is available on PMC & UHS website.

The same applies for admission at RYKMC.

Chairman BOD's **Statement**

"Millions of thanks to Almighty Allah Who guide & chaperon to merriment the inaugural of this novel Medical College of the South Punjab. I'm deeply indebted to all the medical professional members of "Board of Directors" for electing me as the Chairman of prestigious pioneer private medical college of the Rahimyar Khan. The RYK Medical College Pvt. Ltd. board laid the foundation stone of this iconic building complex 2020 & accomplished the civil work in record least time & it stands high amidst stunning lawns, sports grounds & green flora. As chairman of the board my responsibilities were outstripped & thanks to Allah, my dear husband Mazhar Rafi Jam & my kids that I accomplished this gigantic task magnificently. The RYK Medical College & its visionary creative emergence is definitely the outcome of unremitting support & professional opines the members board of directors & the Principal. This "State of Art" RYK Medical College Complex is going to live up to the present & future needs of the students, faculty & staff for long. It's my humble privilege to welcome the pioneer batch of medical students of this potentially epic, long awaited medical institution of South Punjab. RYK Medical College not only opening the doors of quality medical education to indigenous inhabitants but also laid the foundation of excellence in healthcare management system of this unfledged region of the Punjab. My obligations as "Chairman" to offer the conducive physical environment & futuristic well-resourced infra-structure for the faculty, staff & students where the teachers & students have all prospect of modern learning & teaching techniques. I & Directors sturdily alleged in bursting educational autonomy & committed in facilitation to the Principal & academic council. The Principal & the faculty toiled relentlessly to established the state of art, laboratories, museums, Lecture-theatres, Demonstration-rooms. The faculty instigated the research-work & efficaciously published the research articles. I am enthusiastically envisaging this institution among the world ranking medical colleges in near future graduating 7-Star doctors. Be the part of this futuristic medical institution & get ready to serve the nation. Long Live RYK Medical College! Long Live Pakistan!"

MRS. SHAFIQ MAZHAR
Chairman, Board of Directors
RYK Medical College

CEO's Statement

All praises to GOD Almighty from whom we seek all our colors in life. Countless Darood-o-salam on Prophet Muhammad P.B.U.H (Khatim ul Nabiyeen). Life without vision & purpose is just death while living. So is true about any institution. Building this beautiful state of the art campus was not easy by any means. It took a lot of mental and financial courage, vision, determination of 20 futuristic partners. Journey was tiring, nerve wrecking & disheartening at times, but with unity, faith and discipline we overcome all difficulties. Hats off to all directors and partners it's all our team's achievement. We are more than blessed by having one of the top surgeon & educationist of country Prof. Dr. Tariq Mehmood Rehan as Principal and amazing researcher & teacher Prof. Dr. Tehseen Iqbal who is also the vice principal of RYK Medical College. Both scholars along with their dedicated faculty have done great work for an year & half, they have already conducted a number of seminars and workshops. The great thing is that they have produced many valuable research papers at RYK Medical College. Our faculty is eager to teach & produce best mediocse in country. We are determined to provide best educational, sports & all infrastructure that young students require on campus. I request parents to visit and see themselves what we are offering. At RYKMC students will flourish in a supportive environment, that foster intellectual excellence welcomes pluralism, encourages services to those in need. I hope to see you in our campus soon.
Long Live Pakistan.

Dr. Abdul Majid Khan
Chief Executive Officer
RYK Medical College

Secretary -

The composition of board for management of fund will be as under:-

- | | |
|----------------|-------------------------|
| A. Composition | |
| President - | Vice Principal |
| Members - | Director Administration |

Principal's Statement

I'm honored & humble to be founder Principal of RYK Medical College, a crown jewel of the medical institutions. Medical education facing significant challenges in Pakistan in spite of establishment of number of new medical institutions, universities & curricular revisions. It is the difficult time for medical education with sinking standards, tremendous cost inflation & dwindling job opportunities. Where there's difficulty, there's opportunity & there's always place at the top! A new global society is emerging inviting new ways of thinking & we are learning advance technologies from our youth. The medical professionals looking to you & your generation for tomorrow's leadership. We all know that parents & teachers play a critical role in fostering the development of potential ethical grooming of the children. If parents & teachers do little, society blames of not doing their part in raising children! Doing too much, society portrait them too hard-hitting & tough parents & teachers! Your parents & teachers can't take all the blame or credit for everything. You have to take the responsibility of your learning & prove your worth of best trained, ethical, medical professionals. We as teachers assures the provision of conducive, non-threatening educational environment fostering the pertinent skills & attitudes. A well-established "Digital Library & Computer Lab", guarantees the accessibility of millions of medical books on one click, is the key feature of our educational program. The installation of the Learning Management System "ERPNext-LMS" facilitate the faculty, student & administration to focus on main aim of quality education & warrants the confidentiality of individual student's needs, scores & personal information. It's almost a year, I & my faculty work relentlessly to develop the physical prerequisites, compact & high tech learning cum teaching materials, ready for implementation. I worked more than 30 years as a medical teacher, surgeon, medical educationist in public sector colleges & few years as a Principal, but such digitalized educational management program was not experienced in my whole years of experience. I invite all the potential medical students to become the part of RYK medical fraternity & let your inspiration & adoration for medical profession flourish here. Long Live RYK Medical College! Long Live Pakistan!

Prof. Dr. Tariq Mahmood Rehan
Principal
RYK Medical College

About Rahim Yar Khan

About RYK Medical College

As Rahim Yar Khan Hospital established many year back & grown in stature & services quite fast, the idea of building RYK Medical College grew naturally. A group of friends decided to build a state of the art medical college for education. The best teams of Architects & Builders were engaged & work started. All partners and directors are committed to go for best options in building, facilities and faculty. Allhumdullialah dream come true. An amazing college campus is reality today. Unmatched Auditorium is build with vision to hold mega events for Students & Faculty. Hostels have all rooms attached baths rare feature in hostels, top class Cafeteria, Bookshop, General store, Sports facilities and Mosque, adds colors to campus life. 24 Hours security for campus & double security for hostels is assured. Green lawns & Plantation Provides clean air & environment to all. Transport system for students & faculty is provided to make sure dignified movement to medical college. In fact overall a great life time experience is awaiting for you at RYK Medical College

Mission Statement

Cultivating, fostering & preparing the Medical Graduates to Deliver All Modes of Healthcare Of Today & Tomorrow Through Perseverance, originality & Brilliance With Persuasion Of Practical Ethical Principles & Compassion To Diverse Patient Population

Vission Statement

Convicted to meet health needs of nascent southern Punjab with virtuous & financial obligation

MOTTO

- Excel to serve better

Core Values

- Teamwork
- Reflection
- Perseverance
- Innovation &
- Accountability

Transport System

Transport system is an essential part of any prestigious institution.

We are ready to provide our day scholar students & Faculty to provide them out & back Transport facility.

Time bound Transport network on minimum possible charges will be provided. This system be accomplished by security guards for protection & facilitation of travelers.

Day Care

Working women's biggest problem is to take care of their young kids while they are on job.

A wonderful day care facility is build to facilitate the mothers on job at RYK Medical College.Kids teaching, playing, and feeding facilities are designed professional female care takers are already employed. Mothers can watch their kids oftenly on their mobiles.

Book Shop & General Store

- Book Shop be fully operative to provide students
- Books
- Overalls
- College Shirts
- College Blazers
- College Sports Kits & track suits
- Other general required articles

Modern food area is an excellent feature of campus. Strict quality control measures will be followed to assure healthy clean food & beverages to students & faculty.

About RYK & Allied Teaching Hospital

Purposefully build RYK teaching Hospital is serving patients from Punjab, Sindh & Blochistan for more than 8 Years. This State of the art architecture not only adds to the landscape of Rahim Yar Khan but also provides best facilities & services to the patients. Research & Publication Department

Prof. Dr. Ghazali is former Rector of Islamia University, HOD of Department Statistic Department Islamia University and highly qualified researcher. After Doctorate (Ph. D) he did his Post Doctorate from United Kingdom. One of the best teacher and researcher in Pakistan.

Syed Muhammad Shakir Ali Ghazali
 Director Research, Ph. D, Post Doctorate U.K.
 RYK Medical College

Research and publication department is the most essential department for any medical college and university and so for RYKMC is. This department is located at the third floor of the building. It is established to enable our graduates having essential research skills. Healthcare decision-making is largely reliant on evidence-based medicine and understanding and using scientific methods is an essential skill to acquire for our medical graduates. It is essential to inculcate critical thinking and reasoning skills and to develop a positive attitude among medical students towards scientific research from the beginning of their medical career. In this context, research projects during undergraduate studies, not only foster analytical thinking and self-directed learning skills among students, but also improves their oral and written communication skills. Furthermore, these projects play a role in producing physicians who are better equipped to evaluate and apply new knowledge to their profession.

Medical Education Department

Dr. Muhammad Tariq Karim
Director
 Medical Education

Introduction

Medical education department was established by Principal, Professor DR. Tariq Mahmood Rehan in October 2021 in accordance with the guidelines of Pakistan Medical Commission (PMC). Soon after its establishment the department set its objectives for this newly established College and developed strategic plans. By the grace of Almighty Allah we were able to achieve a great deal in a short span in spite of fact that we established a new department in a remote city with scarce resources and a lot of hardships and challenges.

Aims and Objectives;

We should be able to;

1. Develop a system of faculty training according to modern principles of medical education.
2. Improve delivery of education to students by faculty development initiative.
3. Improve existing curriculum (e.g. by initiating the process of integration within the subjects) in accordance to the guidelines of PMC and UHS.
4. Implement the existing curriculum in structured manner by utilizing modern system of information transfer like problem based learning.
5. Develop a new data base and develop Health management information system.
6. Support educational research and enhance medical writing in institution.
7. Develop a system of ethical review to improve patient safety in research.
8. Develop and implement a system of quality assurance and audit.
9. Review the workings of the Department of Medical Education in response to the needs of institution.
10. Support other institutions in development of medical education projects.
11. Motivate and train further educationists for the institution and province.
12. Develop skill labs for both undergraduate and post graduate educations.

Following are the Key Activities of DME

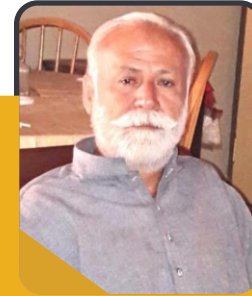

- | | |
|------------------------------|--|
| Educational Development | Curriculum Development |
| Continuing Medical Education | Problem Based Learning |
| Skill lab Development. | Infra-structure Development for Educational Activities |
